6. Siding Panel Installation
7. Window & Door Trim
8. Soffit & Fascia
9. Final Inspection
10. Maintenance Guidelines

Chapter 1: Pre-Installation Planning

Site Assessment:

- â Measure all wall surfaces
- â Calculate material quantities
- â Check wall condition
- â Identify obstacles (electrical, gas, water)
- â Review building codes

Material Acclimation:

- â¢ Store siding horizontally
- â¢ Protect from weather
- â¢ Allow 24 hours to acclimate
- â¢ Maintain 40-90°F temperature

Safety Requirements:

- â¢ OSHA fall protection
- â¢ Proper ladder usage
- â¢ Eye & ear protection
- â¢ Dust masks for cutting
- â¢ First aid kit on site

Chapter 2: Tools & Materials Required

Cutting Tools:

- â¢ Circular saw with fine-tooth blade
- â¢ Tin snips (left, right, straight)
- â¢ Utility knife with hook blades
- â¢ Miter saw for precision cuts

Installation Tools:

- â¢ Hammer (smooth face)
- â¢ Nail gun (pneumatic recommended)
- â¢ Snap lock punch
- â¢ Unlocking tool/zip tool
